# Mapping the Moral Landscape: Military and Defence Ethics

Mapping the Moral Landscape: Military and Defence Ethics is a comprehensive and thought-provoking exploration of the ethical dilemmas faced by military professionals in the 21st century.

The book is divided into three parts. The first part provides a conceptual framework for understanding military ethics. The second part examines the specific ethical challenges faced by military professionals in different operational contexts, such as combat, peacekeeping, and humanitarian assistance. The third part explores the role of ethics in military education, training, and leadership.
