The Mother Tongue: A Language Lost to Time

According to ancient texts and esoteric traditions, the Mother Tongue was a language spoken in Eden, before the dispersion of humanity at the Tower of Babel. This sacred language, it is said, possessed the power to bridge the gap between the material and spiritual realms, unlocking hidden

knowledge and facilitating direct communication with the divine. With the passage of time, however, the Mother Tongue was lost to humanity, its secrets becoming obscured and forgotten.

Moses, the Chosen Messenger

Enter the Prophet Moses, a man destined to play a pivotal role in the preservation and transmission of the Mother Tongue. According to ancient scriptures, Moses was chosen by God to receive the Ten Commandments and to lead the Israelites out of slavery in Egypt. During his time on Mount Sinai, Moses is said to have ascended to the very presence of God and received the divine revelation of the Law, including the Ten Commandments. It is believed that it was during this encounter that Moses also received fragments of the Mother Tongue, which he later encoded into the Hebrew language.

Hebrew: A Vestige of the Mother Tongue

The Hebrew language, with its rich symbolism and enigmatic structure, is widely regarded by scholars as a direct descendant of the Mother Tongue.
